20 March 2015

Dear Parents/Carers of children in Year 2

Maths Whizz

As you are aware, unlike any offering from Whizz Education before, 380 children across Key Stage 1 and Key Stage 2 of our school have been able to reap the benefits of using Maths Whizz for an extended period of time. This has produced amazing benefits for the children, for some it has seen them gain confidence in maths where they previously struggled, for others it invoked a love of maths through their realisation that maths learning could be fun, whilst others have been able to satisfy their thirst for knowledge outside of school. We have seen abilities and confidence rise in class and enjoyed listening to the buzz that Maths Whizz has created around the school. Having reached the end of our pilot of Maths Whizz, we have collated data, not just from Maths Whizz statistics but also in the form of various questionnaires.

Maths Whizz is very expensive but we have found it to be an invaluable resource which has been a great benefit to our pupils, both regarding their learning and their enjoyment. With this in mind, we will strive to reinstate Maths Whizz access across the school in the future.

We are extremely proud of their achievements and how well they have applied themselves to this pilot, their progress in numeracy provides a fine example of their commitment. Access for Year 2 pupils will be available over the weekend until Monday morning at which point the Year 2 pupil accounts will become inactive.

Yours sincerely,

Cathy Farthing
Headteacher
